Space Stocks Surge Upward At New York

NEW YORK (AP)—Further gains by space age shares and a technical rally by rails helped give the stock market a moderate advance in active trading.

Gains and losses of from fractions to about a point prevailed among most key stocks. The electronic - missile - rocket group displayed bigger gains, includnig a leap of 9¼ by Zenith.

President Eisenhower's indication that any conflict over Berlin could result in a nuclear war brought further emphasis on the "glamor stocks" which have made such great strides lately.

The president's proclamation of mandatory import curbs for petroleum and his order for domestic price policing was followed by early softness among oil shares and a partial recovery which left the group mixed.

Aircrafts, steels, motors and utilities also were higher while chemicals were irregular.

Oils Depressed

MONTREAL (CP)—A spurt of activity in speculative issues put mines and oils generally higher. The rest of the market was weak.

Coppers led the advance among the penny issues, as many investors were expecting a further increase in the price of copper. However the speculatives were generally down from their tops of the day. Portage gained 6 cents at 84 and Merrill was up 13 cents at 168. Bateman was against the trend, off 3 cents at 116.

An optimistic outlook was also evident in the higher-priced base metals as Nickel gained 1½ at 94½, a new high.

Trading on the industrial section was active but featureless. Few price changes exceeded fractions. Refining and western oils, pipelines and beverages were narrowly lower, while constructions were mixed.

Papers, utilities and steels were fractionally higher.

Coppers on Rampage

TORONTO (CP) — Speculative copper issues boomed as moderate advance Wednesday mid the fastest trading in eight months.

Some late profit-taking cut the fat of many of the lower priced mines but industrials were gaining strength at the close. The final volume was 9,147,000 shares, well ahead of Tuesday's 7,101,000 but still considerably below the record of 15,800,000 shares traded on July 7 of last year.

Refining oils and pipelines were easier, joining western oils as they reacted to U.S. compulsory restrictions on oil imports.

Speculation of further increases in copper prices on top of price boosts reported earlier this week touched off the run which left the tickers behind floor sales in the morning. Maritimes Mining had one of the best wins, up 15 cents at $1.87. Chesterville was the most active issue, up three cents at 41. New Mylamaque touched $2.37 before closing up 12 cents at $2.25.

Among industrials three of the five most active were unchanged, two lost and one gained. Trans Mountain Pipe Line was the big loser among the active issues, off ⅝ at 11¼.

Seniors lost fractions in western oils. Calgary and Edmonton had the big loss, off 1¼ at 31½.

Grain Prices

WINNIPEG (CP) — Revival of export interest in Canadian coarse grains highlighted activity.

Feature of the interest was a report that a cargo of barley, representing about 380,000 bushels was sold to northern Ireland and a parcel lot went to the United Kingdom.

Oats and barley trade, however, was quiet. Shippers were buyers, while offerings were about in line with the demand. Prices showed a firm undertone.

Flax trade was light. Trade reports indicated a parcel lot of flax was sold to France. Prices at the exchange were firm.

Rye dealings were mostly of a commission house nature, with prices following the trend of U.S. markets.

Overnight wheat loadings included: United Kingdom 610,000 bushels, Japan 775,000, South Africa 435,000, Belgium 135,000, Denmark 40,000 and Hong Kong a small parcel lot.

CHICAGO (AP)—Active export buying and short-covering turned wheat futures prices toward general recovery after an early setback which ran to as much as a cent a bushel on the May delivery.

The first overseas business of any consequence this week were sales totalling 1,350,000 bushels of hard wheat overnight and today to Yugoslavia. Brazil also came into the picture for 1,120,000 bushels.

Buying on these accounts sent nearly all wheat contracts slightly to the plus side at times.

March corn and oats were bid up about a cent at times.
